

Aquinnah Wampanoag Tribe Announces Chickasaw Nation As Gaming Development Partner

August 22, 2018 (Aquinnah, Massachusetts). On Sunday August 19th, the Wampanoag Tribe of Gay Head (Aquinnah) announced the name of its gaming development partner at the Tribe's General Membership meeting. The Aquinnah Wampanoag Gaming Corporation has selected Chickasaw Nation's hospitality enterprise, Global Gaming Solutions, to assist them with developing their bingo facility on Martha's Vineyard.

"We are beyond pleased that the right of the Aquinnah Wampanoag to conduct gaming on our tribal lands has been unequivocally affirmed by both the federal appeals court and Supreme Court of the United States," said Chairwoman Andrews-Maltais. "Now we look forward to partnering with another tribe to bring economic development to Aquinnah and Martha's Vineyard. The Chickasaw Nation's success speaks for itself and we are honored to be in partnership with them."

Global Gaming Solutions is a business entity of the Chickasaw Nation, one of the most progressive, successful and financially strong Native American Tribes in North America. The GGS team has designed, operated or opened more than thirty casinos and placed or managed more than 50,000 electronic games and provides exceptional, results-oriented management, transaction and developing services in the gaming, racing and entertainment industries.

"Developing gaming and entertainment operations that further the economic development goals of Native American Tribes is central to our business charter," said Skip Seeley, chief executive officer of Global Gaming Solutions. "We are excited to partner with the Aquinnah Wampanoag Tribe as they launch this project to support the local economy in Martha's Vineyard and create opportunities for their tribal citizens."

"As the People of the First Light, we are the stewards of our lands, and we're dedicated to preserving the atmosphere and beauty of the Island," says Chairwoman Andrews-Maltais. "Any gaming facility we operate will blend in with the rest of the Island, and the Tribe will work with local businesses to create a positive economic impact for our neighbors in the larger Island community."
